Fort St. George, February 8, 1926
(G.O. No. 115, Finance).

No. 26.—The Government of India have on various occasions had under consideration the possibility of omitting pies in Government accounts, and in 1921 they made a beginning in that direction so far as the transactions of the Central Government were concerned by directing the omission of pies in salary, establishment, pension and travelling allowance bills. A similar procedure was introduced in this Presidency with regard to Provincial payments with effect from 1st April 1922.

2. The Government of India now consider that from the year 1926–27, the following transactions should be taken to the nearest anna, i.e., 6 pies and over should be considered as one anna and amounts less than six pies should be omitted :—

(1) Payments to or recoveries from Government servants and pensioners.

(2) Accounts rendered from one Government or Department to another.

(3) Amounts converted into Indian currency from Sterling.

(4) All receipts other than receipts of revenue which are fixed by or under the law, e.g., receipts on account of Remittance Transfer Receipts, Deposits, etc.

The Government of India have asked Local Governments to see how far it is possible for them to adopt these rules. The Government accordingly proceed to pass the following orders.

3. (1) *Payments to or recoveries from Government servants and pensioners.*—The procedure of making payments rounded to the nearest anna in respect of personal claims of Government servants and pensioners has already been adopted in the following cases :—

(*a*) Pay, leave salary, travelling allowance and pensions of officers,

(*b*) Deductions on account of General Provident Fund and other funds and income tax, and

(*c*) Recoveries of service payments ordered by the Audit office and recoveries ordered by departmental officers without the cognizance of the Audit office.

The Accountant-General has suggested that the process of elimination of pies may be extended to recoveries which are effected from pay bills on account of civil court attachment orders and hospital stoppages. Orders will be separately issued on this question.

(2) *Accounts rendered from one Government or Department to another* and (3) *Amounts converted into Indian currency from Sterling.*—All transactions on these accounts will be rounded to the nearest anna from the year 1926–27.

(4) *Receipts accruing to the Government.*—In the case of some receipts accruing to the Government, the rules already provide for the levy of fees in rupees and annas, *e.g.*, registration fees. As regards *land revenue* receipts, the Board of Revenue, after obtaining the views of selected Collectors, considers it desirable that pies should be eliminated. The Government now direct that, with effect from 1926–27, all receipts accruing to the Government should be rounded to the nearest annas subject to the following exceptions :—

(*a*) Fees fixed for the filing of returns of allotment prescribed by section 104 of the Indian Companies Act. (The question of amending the rule will be considered separately.)

(*b*) Commission fees to the Administrator-General and Official Trustee.

It has been considered that this Government will have to issue a supplementary or amended rule to eliminate pies from the fees to be charged. The question of the amendment of the rules will be considered separately.

(*c*) Fees levied in the case of elementary schools.

(*d*) Cesses recovered from fish-curers in fish-curing yards.

(*e*) The following items of receipts in the Salt Department :—

(i) Deposits of sale-proceeds of Excise salt sold in auction.

(ii) Rent on pans and cess collections.

(iii) Advances recoverable from the licensees and kudivaram payments.

4. The Government have decided not to extend the system of elimination of pies to the cases of Remittance Transfer Receipts, Deposits, and Refunds of deposits.

5. Separate orders will be issued in the Local Self-Government Department regarding the extension of the system of elimination of pies in the case of certain transactions affecting local bodies.

G. T. BOAG,
Secretary to Government.

NOTIFICATIONS.

No. 139.—The following Government Order is published :—

G.O. Press, No. 54, Public, dated 2nd February 1926.

The question has been raised whether private medical practitioners who are appointed by local boards and municipalities with or without the consent of the Surgeon-General to hold charge of local fund and municipal medical institutions should be authorized to conduct post-mortem examinations, to grant wound certificates and to do other medico-legal work at the instance of Government servants, such as the police and village munsifs. The Government, after careful consideration of the objections raised against the proposed authorization, have decided that private medical practitioners appointed to hold charge of local fund and municipal medical institutions should be given an opportunity of proving that they deserve the confidence of the public, the courts and the police. They therefore authorize Government officers to request private medical practitioners appointed by local boards and municipalities to hold charge of local fund and municipal medical institutions to conduct post-mortem examinations and to grant wound certificates.

2. The District Magistrate should after consulting the District Medical Officer bring to the notice of the Surgeon-General for such action as he considers necessary any case in which there is reason to suppose that a medical examination has not been conducted properly or in which an incorrect report or certificate has been issued.

3. The Inspector-General of Police is requested to notice the working of the scheme in his administration report for each of next three years. The District Magistrates also are requested to include remarks on it in their reviews of the administration reports of the District Superintendents of Police.

No. 146.—The following Government Order is published :—

G O No. 258, P H, DATED 8TH FEBRUARY 1926.

Read—the following :—

From the Director of Public Health, No. R, 787-1-E, dated the 16th December 1925.

Order.

With his letter read above, the Director of Public Health forwards with reference to G.O. No. 785, P.H., dated 1st June 1923, a summary of the reports submitted by Presidents of District Boards and Chairmen of Municipal Councils on the action taken by them in 1923 and 1924 to combat the hookworm disease in their local areas From the reports received, the Government regret to observe that local bodies have not yet realized the importance of the work that is being done by the International Health Board in the anti-hookworm campaign and the necessity for its active pursuit in their local areas In many places, the only work so far carried out by local bodies to combat the disease has been propaganda in the form of lectures and informal talks with the people by medical officers and health inspectors. No sustained efforts appear to have been made to provide latrines either public or private and little progress has consequently been made in this respect The Government wish to impress upon local bodies that the International Health Board will not continue its work in this Presidency indefinitely unless it is found that some responsive effort is being made by those responsible for the maintenance of public health to carry out the measures which its investigation have shown to be essential for the eradication of the disease.

2. The attention of all district boards and municipal councils is, therefore, once again drawn to the memorandum on hookworm printed in G O No 765, P.H, dated 1st June 1922, and also to the extracts from a note of the Director of the Hookworm Campaign which are appended to this order.

The campaign so far conducted has shown that the disease is widely prevalent throughout the Presidency and that it can be eradicated only if a permanent improvement is effected in rural sanitation by the provision of suitable latrines and their habitual use by the people as a whole Such a revolution in the habits of the people can be accomplished only by sustained and determined efforts on the part of local bodies. The Government trust that local boards and municipal councils will consider carefully the debilitating effect of this disease upon the vitality of the people of this Presidency and will devote their most careful attention to the question of giving practical assistance in the campaign both by the provision of adequate latrine accommodation and by making available in all medical institutions under their control the drugs necessary for treating the disease.

APPENDIX.

NOTE BY THE DIRECTOR OF THE ANKYLOSTOMIASIS CAMPAIGN ON THE INTENSIVE EDUCATIONAL CAMPAIGN AGAINST ANKYLOSTOMIASIS.

* * * *

4. The intensive educational campaign was undertaken with the object of conveying to the people the idea that certain diseases to which human flesh falls heir are entirely preventable if only whole communities will exercise concerted efforts to conform to certain sanitary principles, (2) to teach the people that one of the commonest of their easily preventable diseases (hookworm) may be easily cured and easily prevented, (3) to teach the people that such a disease as hookworm actually exists, how to recognize the presence of the disease, and that a simple, sure and cheap remedy may be had at any hospital or dispensary, (4) to reduce the amount of existing infection in the soil by wholesale removal from large numbers of persons of the adult worms which are responsible for all the infection that exist in the soil, (5) to influence the people to protect themselves permanently from the ravages of this and other filth borne diseases by the installation and use of sanitary latrines.

5. It might be asked why hookworm was chosen as a means of bringing about these improvements rather than cholera, enteric fever, the dysenteries, or some other disease which is caused almost entirely by the improper disposal of human discharges. First I might say that it was not chosen simply for the purpose of curing a number of suffering individuals, even though this is one of the very important consequences of the campaign. It was chosen, however, because it is a very widespread disease which, like all the other diseases mentioned above, is caused by the improper disposal of human discharges but which unlike these other diseases is so well understood and can be explained so easily and clearly that the simplest person in a community can be made to understand all the essential facts about it. Furthermore, one can give visual demonstrations of the adult worms, the eggs, and the larvæ (baby worms) that develop in the soil from the eggs that reach the soil with the faeces. On the other hand, if one tries to demonstrate with a microscope the vibrio of cholera or the bacillus of typhoid fever to an individual who in all cases is very wary of your intentions, the result is that he is unable to recognize the presence of anything that he could possibly believe could make him ill or cause death and he is left in a more sceptical mood than before an attempt was made to teach him these important facts. If, therefore, we can prevail upon the people to protect themselves from a malady about which they can all understand and one which is transmitted from person to person by the same insanitary practices as are a number of other important diseases which may be understood only with difficulty it is clear that we should be attacking the perpetuating source of all the filth-borne diseases. For, after all, to say that a person has typhoid or cholera infection is to say that he has taken into his system the discharges of a person who either has the disease referred to or has had it within the past several months. The fundamental prevention of hookworm as well as the several other diseases mentioned, obviously depends upon the provision and use of proper facilities for the care of human excreta so as to avoid the pollution of the soil, of drinking water, and of food, and the consequent infection of new victims.

6. In our work in North Arcot the first four of the objects mentioned above have met with considerable success but the same cannot be said of the fifth and most important. The degree of success attained in an anti-hookworm campaign may be judged to a very great extent by the improvement that has been made in the form of provision and use of sanitary latrines, because it is only through this medium that a community can adequately protect itself from the dangers that always attend improper disposal of human discharges. Failure to attain this object in North Arcot district has not been due entirely to the people's lack of appreciation of what we were driving at but rather to lack of funds for the construction of private latrines and to the alarming lack of organized community effort. It is perfectly possible for many, if not all, communities to provide themselves with these sanitary conveniences if only they are organized and possibly stimulated by small money grants in the beginning. In all cases however, there must be some local organization to assume responsibility, if not for the original construction, for the subsequent care and maintenance of the latrines.

7. From the very nature of the problem which has been partially discussed above it is obvious that permanent results may be expected from a campaign of this kind only after sanitary latrines have been constructed and the bulk of the people have been trained to use them. This cannot be accomplished with whirl-wind rapidity but only by sustained and determined efforts. Meantime the educational work which we are doing and the benefits that are derived from treatments will go far towards preparing the field for future developments in public health, especially rural sanitation. We are gaining the confidence of the people, reducing both human and soil infestations of all sorts of intestinal parasites, improving the health of large numbers of persons, and teaching sound public health principles.

THE COTTON CROP OF 1925-26—FOURTH REPORT

[On an average of the five years ending 1923-24, the area under cotton in the Madras Presidency has represented 10·3 per cent of the total area under cotton in India.]

The area sown with cotton in the Madras Presidency up to the end of January 1926 is estimated at 2,695,400 acres, as compared with the estimate of 2,866,100 acres at the corresponding date of last year and 2,692,900 acres in the final forecast of last year. The last estimate fell short of the finally recorded area of 2,903,400 acres by only 0·4 per cent. The area in an average year is estimated at 2,335,900 acres.

2. 503,200 acres have been reported as sown since the December forecast, made up of 282,000 acres of Tinnevelies, 92,100 acres of Cambodia, 84,000 acres of Northern and Western, 44,000 acres of Salems, and 11,100 acres of Coconadas. The area sown in December and January is greater this year than in the previous year by 94,400 acres. The area in Kistna and Cuddapah, as now reported, is less than in the previous report as some of the talaks have furnished revised figures.

3. This year's estimate shows a decrease of 7 per cent in area as compared with last year's actual area. There is an increase in area in Bellary, Anantapur, and Guntur owing to the favourable season but there is a reduction in area in most of the other districts, partly due to the continued fall in the price of cotton. In parts of Karnool and Cuddapah, cotton has been replaced by groundnut as the groundnut forecast recently published will show. The reduction in area in the Central and Southern districts, especially in Coimbatore and Tinnevelly is partly due to the intense of the season and the very heavy rains of November and December. In Kistna, excessive rains in August interfered with sowings.

4. The crop in the "Coconadas" tract is healthy and yields slightly above normal are expected if the weather continues favourable; picking of early crops has commenced in parts of the tract. The picking of the early sown crop in the Deccan has been completed. The yield has been slightly reduced owing to the rains of December and the cotton has been badly stained and lowered in quality; the crop, especially in Bellary, is putting forth fresh leaves and flowers owing to too much moisture in the soil and there will be a second picking which is not at all usual in this tract, the yield of which it is not now possible to estimate. The late sown crop has been affected to some extent by the untimely rains and cloudy weather of December-January; it is however recovering with the present bright weather and yields slightly above normal are expected if the weather continues as at present. Normal yields are expected in the Central districts. The yield in the Tinnevelly tract is expected to be normal for irrigated Cambodia and slightly above normal for dry cottons as sufficient rainfall has been received with suitable spells of dry weather.

The seasonal factor for the Presidency works out at 101 per cent of the average as against 94 per cent in the previous year. On this basis, the yield works out at 571,100 bales of 400 lb. lint against 537,200 bales in the previous year. As compared with the average, viz., 487,700 bales, there is an increase amounting to 17 per cent. It is, however, too early to estimate the yield with accuracy as the harvest has not yet commenced in the major portion of the area and much will depend upon the subsequent weather conditions and the toll taken by insect pests.

5. The estimated area and yield under the several varieties are given below. No claim for great accuracy can be made for this estimate however as adequate data are not available :—

Variety.	Area (April to February)		Yield (Bales of 400 lb. lint).

THE PADDY CROP OF 1925-26—THIRD OR FINAL REPORT

[On an average of the five years ending 1923-24, the area under paddy in the Madras Presidency has represented some 13·4 per cent of the total area under paddy in India.]

The area sown with paddy in the Madras Presidency in 1925-26 is estimated at 11,050,000 acres as compared with the last year's estimate of 10,562,000 acres. The latter estimate fell short of the finally recorded area of 10,870,240 acres by three per cent. This year's estimate is two per cent higher than last year's estimate, but three per cent below the average area of 11,419,800 acres.

2. 1,440,000 acres have been reported as sown since the December forecast, mainly in Godavari (East and West), Anantapur, the Carnatic districts, Chittoor, North Arcot, Trichinopoly, and the South. This area exceeds the corresponding figure of the previous year by more than 50 per cent. The area under the second crop will be much greater than last year as the irrigation sources have received good supplies owing to the heavy rain received in December and January.

3. There have been reductions in the area under paddy in West Godavari and Kistna due to very heavy rains at the transplantation period and in Anantapur, Salem, Coimbatore, Trichinopoly, Madura, and Ramnad due to late rains and insufficient supplies in irrigation sources. There have been increases in the other districts.

4. Yields normal or slightly above normal are expected in all districts except Anantapur, South Arcot, Chittoor, North Arcot, Salem, Trichinopoly, Tanjore, and Tinnevelly. In South Arcot and Tanjore, heavy rains at the end of January damaged to some extent crops ready for harvest; in Tanjore and Trichinopoly, the crop suffered slightly from the attack of insect pests. In Salem, the yield was reduced owing to late planting and to the want of water during growth. In Anantapur, Chittoor, and North Arcot, irrigation supplies were not adequate enough to ensure normal yields.

The seasonal factor for the Presidency works out at 101 per cent against 96 per cent in the previous year. On this basis, the yield works out at 103,639,000 cwt. of cleaned rice as compared with 98,167,000 cwt. estimated for the previous year, an increase of six per cent. The present estimate is less than the average estimated yield of 107,814,000 cwt. by four per cent.

5. Figures by districts are given in the annexed statement.

(3) And provided also that whenever the Advocate-General is a Vakil of the High Court the High Court shall have power to admit and enrol such Vakil as an Advocate on his application in this behalf.

NOTICE OF CONDITIONS OF ISSUE OF FIXED FEE FOREIGN LIQUOR LICENCES.

No. 2.—The following notification is issued in supersession of Notification No. 5, dated 30th January 1925, published in the *Fort St. George Gazette*, Part II, dated 10th February 1925.

In exercise of the power conferred on him under section 4 (*g*) of the Madras Abkari Act, 1886, the Commissioner of Excise hereby prescribes, under section 24 of the Act, the following rules for regulating the issue of licenses on fixed fees for the compounding, blending, bottling and sale of potable foreign liquors, locally-made foreign liquors and coconut toddy arrack from and after the 1st April 1926 within the limits of the Madras Presidency :—

1. The term '*foreign liquor*' in these rules includes all wines, spirits and beer imported into the Presidency by sea or land; plain rectified spirits imported or locally-made and on which the tariff rate of duty has been paid; and beer brewed in India or beer imported in a condensed form and afterwards converted into potable beer and duly excised, but excludes locally-made foreign liquor, denatured spirits, coconut toddy arrack and ordinary arrack. In the case of licences to chemists, druggists and other approved firms or persons, however, for the sale of pure rectified spirits only, the term '*foreign liquor*' means pure rectified spirits imported from foreign countries by sea or manufactured in this country and excised at the tariff rate of duty.

'Locally-made foreign liquor' is spirit manufactured or compounded in British India and made in colour and flavour to resemble gin, brandy, whisky or rum imported from foreign countries. It is excised at Rs 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits.

'Coconut toddy arrack' is spirit manufactured from toddy at the Chewghat distillery in Malabar and excised at Rs. 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two imperial gallons.

NOTE.—1. The minimum strengths at which imported and locally-made foreign spirits can be sold are 25° U.P. for gin, 30° U.P. for Calcutta arrack and coconut toddy arrack and 25° U.P. for all other kinds of spirits including Indian arrack, except denatured spirits.

2. 'Rectified spirits' includes 'absolute alcohol'.

'Indian' beer is beer brewed in India (*a*) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane sugar is employed, (*b*) which is brewed at a higher original gravity than 1,058* on a standard saccharometer and (*c*) the maximum price of which at the brewery is Rs. 40-0-0* per hogshead *plus* the excise duty in force at the time of issue.

2 Licenses for the sale of foreign liquors, locally-made foreign liquors and coconut toddy arrack shall be of the following descriptions :—

I. *Wholesale licences for the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack, not to be drunk on the premises.*—These will be issued on an annual fee of Rs. 1,600 in Madras and Rs. 250 in other districts, at the discretion of Collectors. Under these licences the sale of liquor in quantities less than two imperial gallons or a dozen reputed quart bottles or two dozen reputed pint bottles of each kind at a time is prohibited. The holders of this license will have the privilege of issuing to licensed dealers only samples of liquor in quantities not exceeding one pint. In Madras town, holders of this licence will not be allowed to sell 'Indian' beer. Holders of this license are prohibited from selling coconut toddy arrack in bulk to private persons in Malabar district and are permitted to sell it to such persons only in bottles, sealed and labelled in accordance with the bottling rules (*a*).

II. *Retail licences for the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack, not to be drunk on the premises* (*a*).—These will be of two kinds—one for the sale of all kinds of foreign liquor, except 'Indian' beer and of locally-made foreign liquor and coconut toddy arrack and the other for the sale of beer brewed in India

* The supply of Indian beer from Bangalore Brewery will be restricted to shops which have obtained beer from that brewery during 1922-23.

* (a) The former will be issued at the discretion of the Commissioner and Collectors on payment of an annual fee of Rs. 1,000 in the Nilgiris except Gudalur, Rs. 500 in the town of Madura, Rs. 250 in towns having a population of 25,000 and over and in Kodaikanal, Yercaud and Coonur, in Shiyali, Tiruttuvippundi, Tiruvadanai and Tenkasi taluks and Rs. 150 in the rest of the Presidency *. Under these licences the sale of liquor in a quantity less than one reputed pint and greater than two imperial gallons in one transaction will be prohibited.

(b) Retail licences for the sale of beer brewed in India will be issued to successful bidders for beer shops on payment of an annual fee of Rs 50

III. *Hotel licences for the supply of residents in hotels and boarding houses.*—These will be of two classes and subject to a payment of an annual fee of Rs. 500 or Rs. 250 in Madras, of Rs. 100 or Rs. 50 on the Nilgiris, and of Rs. 50 or Rs. 25 in the rest of the Presidency, as may in each case be determined by the Collector. No liquor may be sold under these licences otherwise than to residents in hotels and boarding-houses for their own use and that of their guests, or to casual visitors requiring liquor with the meal or meals supplied to them.

In Madras a holder of a hotel license desirous of setting up and maintaining in his hotel a bar or bars may, on payment of a monthly fee of Rs. 100 for a first-class bar or Rs. 50 for a second class bar, be granted a separate licence to be called a bar licence. This will cover the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack under the same conditions and to the same extent as the tavern licence.

In Madras, special bar licences will also be issued to others than holders of hotel licences with the previous sanction of the Commissioner. The fees in such cases will be fixed by the Commissioner and the licences will entitle the holders to sell to all comers.

IV. *Refreshment-room licences* will be of two classes—

(a) *For refreshment-rooms maintained by, or under the supervision and control of, railway companies and proprietors or managers of lines of dak carriages for the supply on the premises of travellers by such railways or dak lines.*—The annual fee payable for each licence will be fixed by the Commissioner from time to time. Under these licences liquor may be sold to *bona fide* travellers, or to other persons served with regular meals in the rooms for consumption on the premises to any extent, provided that no more than one reputed quart of spirits or two reputed quarts of any other kind of liquor sold at the refreshment-room may be sold at one time to any such traveller for removal from the premises.

(b) *For refreshment rooms in which the sale of liquor is ordinarily combined with the supply of meals or of eatables prepared and served in the European manner.*—The annual fee will be Rs. 500 in Madras and Rs. 75 in the rest of the Presidency. It will at all times be optional with the Collector to withdraw licences of this description if it should appear that the sale of liquor to persons who have not partaken of meals in the refreshment-room is permitted to such an extent or so habitually that the refreshment-room may fairly be classed as a tavern. Sale of liquor for removal from the premises will not be allowed under these licences. The premises to be used for the sale of liquor under these licences must be at least of the monthly rentable value of Rs. 50 in Madras and in Cotacamund and Coonoor Municipalities and of Rs. 25 in the rest of the Presidency

V. *Occasional licences*, such as licences for the sale at refreshment stalls in connexion with race meetings and public entertainments. These will be granted by Collectors at their discretion for periods not exceeding ten days at one time and at such fees not exceeding Rs. 100 on each occasion as they may determine. No removal of liquor from the premises will be allowed under these licences

VI. *Special licences* will also be granted by Collectors in consultation with the officers of the Excise Department when the circumstances are such as not to allow of the issue of licences of any of the above descriptions on such terms and conditions and for such periods as they may on each occasion determine.

VII. *Auctioneers' licences.*—Annual fee, Rs. 5. The following are important provisions of this licence :—

(a) Liberty to give sample bottles in respect of all consignments, whether trade consignments or the property of private persons, in order that intending purchasers may have the opportunity of testing high class wines and spirits at their own houses before the auction sale.

(b) Authority to sell wines, spirits and beer in less quantities than whole dozens of such description in the case of sales by auction of the property of private parties or estates or of trade consignments which are sullaged or otherwise unmerchantable.

(c) Authority to sell by auction at places other than that specified in the licence, viz., at any private residence at which the licensee may hold an auction.

VIII. *Licences for the sale of pure rectified spirits.*—These will be issued to chemists and druggists and other firms or persons specially approved by Collectors, on payment of an annual fee of Rs. 10. Under these licences the possession of pure rectified spirits in excess of ten imperial gallons (or such larger quantity as the Collector may, in consultation with the officers of the Excise Department, specially authorize) is prohibited. Pure rectified spirits must not be sold under these licences for other than *bona fide* medical, industrial and scientific purposes, and the maximum limit of sale at one time to the same person is restricted to one reputed pint in the case

* NOTE.—In places where there are beer shops, holders of retail licences for the sale of all kinds of foreign liquor except Indian beer will be permitted to sell beer brewed in India on English principles only in bottles as bottled at the brewery at which it was brewed.

(a) Holders of F.L.-1 and F.L.-2 licences may stock and sell rectified spirit provided (1) that separate accountants are kept for transactions under the head, (2) that receptacles containing rectified spirits are labelled with labels showing the kind or description of spirit contained therein and the place of manufacture, (3) that consignments of rectified spirits imported from other provinces are not opened before they are verified by an Excise Officer, (4) that accounts are maintained in the prescribed form and show in the case of consignments of rectified spirit obtained from other provinces in India, the source of supply route (and name of steamer, if obtained by sea) and such other particulars as may be prescribed. Statistics showing separately the consumption of imported and locally-made rectified spirit should be furnished.

of sale to a private individual, two reputed quarts in the case of sale to a chemist, medical practitioner or scientific body and three imperial gallons to any Government, Local Fund or Municipal hospital. Receptacles containing rectified spirits should be labelled with labels showing the kind or description of spirit contained therein and the place of manufacture; consignments of rectified spirit imported from other provinces should not be opened before they are verified by an Excise Officer. Accounts should be maintained in the prescribed form and must show in the case of consignments of rectified spirits obtained from other provinces in India, the source of supply, route (and name of steamer, if obtained by sea) and such other particulars as may be prescribed. Statistics showing separately the consumption of imported and locally-made rectified spirits should be furnished to Collectors

IX. *Licences for the sale of medicated wines and similar preparations* containing 26 per cent and upwards but not more than 42 per cent of proof spirit will be issued by Collectors on payment of an annual fee of Rs. 10,

3. *Licenses for compounding or blending foreign liquors and locally made foreign liquors* will be granted to holders of wholesale licenses by Collectors and licenses for *compounding* to licensed distillers by the Assistant Commissioner for Distilleries on payment of an annual fee of Rs. 250.

4. *Licenses for the bottling of foreign liquors, except beer brewed locally and of locally made foreign liquors and coconut toddy arrack*, will be granted to holders of wholesale licences by Collectors and to licensed distillers by the Assistant Commissioner for Distilleries on payment of an annual fee of Rs. 50.

5. Any two or more of the above kinds of licences may be granted to the same person for the sale of liquor in the same premises.

6. No premises shall be used for the sale of liquor unless and until approved by the Collector.

7. All licensees shall maintain and furnish to Collectors statistics showing separately the consumption of imported foreign liquors and locally-made spirits and beers and coconut toddy arrack.

8. All licenses (other than occasional and special licenses) will have effect for the official year, i.e., from the 1st April in each year until the 31st March of the following year.

9. The full fee on all fixed fee foreign liquor licences shall be paid in advance at the time of issue of the licence

10. For the convenience of the trade, Collectors will, so far as possible, receive and dispose of applications for licences under clause IV (5) to have effect during the following official year before the tavern sales for that year. Licences for the sale of liquor in mofussil refreshment-rooms should be very sparingly given.

11. All further information may be obtained and forms of licenses may be procured at a charge of two annas each at the offices of Collectors.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 25th January 1926 :—

No. 6 of 1926.

A Bill to amend the law relating to the appointment of legal practitioners in civil suits and for that purpose further to amend the Code of Civil Procedure, 1908.

WHEREAS it is expedient to amend the law relating to the appointment of legal practitioners in civil suits and for this purpose further to amend the Code of Civil Procedure, 1908; It is hereby enacted as follows :— V of 1908.

1. (*1*) This Act may be called the Code of Civil Procedure (Second Amendment) Act, 1926. Short title and com-mencement.

(*2*) It shall come into force on such date as the Governor-General in Council may, by notification in the *Gazette of India*, appoint.

Amendment of Order III, Schedule I, Act V of 1908.

2. In Order III of Schedule I to the Code of Civil Procedure, V of 1908 1908,—

(a) in rule 2 for the words "duly appointed to act" the words "appearing, applying or acting, as the case may be," shall be substituted; and

(b) for rule 4 the following rule shall be substituted, namely:—

Appointment of pleader

"4. (1) No pleader shall act for any person in any Court, unless he has been appointed for the purpose by such person by a document in writing signed by such person or by his recognized agent or by some other person duly authorized by or under a power of attorney to make such appointment.

(2) Every such appointment shall be filed in Court and shall be deemed to be in force until determined with the leave of the Court by a writing signed by the client or the pleader, as the case may be, and filed in Court, or until the client or the pleader dies, or until all proceedings in the suit are ended so far as regards the client.

(3) For the purpose of sub-rule (2) an application for review of judgment, an application under section 144 or section 152 of this Code, any appeal from any decree or order in the suit and any application or act for the purpose of obtaining copies of documents or return of documents produced or filed in the suit or of obtaining refund of money paid into the Court in connexion with the suit shall be deemed to be proceedings in the suit.

(4) The High Court may, by general order, direct that, where the person by whom a pleader is appointed is unable to write his name, his mark upon the document appointing the pleader shall be attested by such person and in such manner as may be specified by the order.

(5) No pleader who has been engaged for the purpose of pleading only shall plead on behalf of any party, unless he has filed in Court a memorandum of appearance signed by himself and stating—

(a) the names of the parties to the suit,

(b) the name of the party for whom he appears, and

(c) the name of the person by whom he is authorized to appear:

Provided that nothing in this sub-rule shall apply to any pleader engaged to plead on behalf of any party by any other pleader who has been duly appointed to act in Court on behalf of such party."

Repeals.

3. Section 19 and Form C in Schedule II of the Bombay Pleaders Act, 1920, are hereby repealed. Bom. Act XVII of 1920.

STATEMENT OF OBJECTS AND REASONS.

The Indian Bar Committee made the following recommendations in regard to *vakalatnamas* :—

1. *Vakalatnamas*.—Distinctions between barristers and vakils should be abolished. All practitioners should be required to file *vakalatnamas* when they act, but should have the option of filing a memorandum of appearance when they merely appear and plead. This should not apply to advocates who under the existing rules can only appear on the original sides of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney. (Paragraphs 18, 21 and 23 of the Report.)

2. High Courts should be given power to determine the Courts and classes of cases in which a memorandum of appearance might be substituted for a *vakalatnama* where a practitioner acts on behalf of an accused person. (Paragraph 24 of the Report.)

3. The proposed memorandum of appearance might be made liable to the same Court fee as a *vakalatnama* to avoid loss of revenue. (Paragraph 24 of the Report.)

These recommendations have been generally accepted by Local Governments and High Courts and this Bill proposes to give effect to them with the following exceptions :—

(*a*) In lieu of the proposed exception of advocates appearing on the Original Side of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney, a general provision has been included with the object of securing that, when a *vakalatnama* has been filed by a pleader duly appointed to act in Court in the proceedings, a pleader instructed by him to plead only will not be required to file even a memorandum of appearance.

(*b*) No provisions are included in the Bill in regard to the filing of memoranda of appearances in criminal cases. The Government of India consider that this question should be left to be decided by the High Courts concerned, but they doubt whether such memoranda should be required to be stamped.

(*c*) The question of whether memoranda of appearances in civil cases should be stamped is omitted from the Bill, as it is considered that it should be decided by the local Legislatures concerned by amendment of the Schedule of the Court Fees Act, 1870.

Advantage has been taken of this opportunity to embody in Order III of Schedule I to the Code of Civil Procedure the substance of the provisions of sub-section (*3*) of section 10 of the Bombay Pleaders Act and of rule 4 (*4*) in Order III of the Schedule made by the High Court of Madras under section 122. This will mean that a separate *vakalatnama* will not be required for appearances in appeals, etc., or for getting copies of documents and so on after the proceedings in the original suit are ended.

The 23rd January 1926. H. TONKINSON.

The following Bill was introduced in the Legislative Assembly on the 25th January 1926 :—

No. 7 of 1926.

A Bill to define in certain cases the rights of legal practitioners to sue for their fees and their liabilities to be sued in respect of negligence in the discharge of their professional duties.

WHEREAS it is expedient to define in certain cases the rights of legal practitioners to sue for their fees and their liabilities to be sued in

respect of negligence in the discharge of their professional duties. It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Legal Practitioners (Fees) Act, 1926.

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

Interpretation.

2. For the purposes of this Act, unless there is anything repugnant in the subject or context,—

(*a*) "legal practitioner" means a legal practitioner as defined in section 3 of the Legal Practitioners Act, 1879; and XVIII of 1879.

(*b*) a legal practitioner shall not be deemed to "act" if he only pleads, or to agree to "act" if he agrees only to plead.

Agreements for engagement of legal practitioner.

3. Any legal practitioner who acts or agrees to act for any person may by private agreement settle with such person the terms of his engagement and the fee to be paid for his professional services.

Right of legal practitioner to sue for fees.

4. Any such legal practitioner shall be entitled to institute and maintain legal proceedings for the recovery of any fee due to him under the agreement, or, if no such fee has been settled, a fee computed in accordance with the law for the time being in force in regard to the computation of the costs to be awarded to a party in respect of the fee of his legal practitioner.

Liability of legal practitioners to be sued.

5. No legal practitioner who has acted or agreed to act shall, by reason only of being a legal practitioner, be exempt from liability to be sued in respect of any loss or injury due to any negligence in the conduct of his professional duties.

Repeals.

6. Sections 28 to 31 of the Legal Practitioners Act, 1879, and sections 17, 18 and 28 of the Bombay Pleaders Act, 1920, are hereby repealed. XVIII of 1879. Bom. Act XVII of 1920.

STATEMENT OF OBJECTS AND REASONS.

This Bill gives effect to the recommendation of the Indian Bar Committee in paragraph 42 of their report to the effect that, in any case in which a legal practitioner has acted or agreed to act, he should be liable to be sued for negligence, and be entitled to sue for his fee.

The Bill further repeals or re-enacts further provisions now contained in the Legal Practitioners Act, 1879, and the Bombay Pleaders Act, 1920, in so far as those provisions are respectively inconsistent or not inconsistent with the recommendations. It is proposed that the operation of the Bill shall extend to the whole of British India.
